5" TABLETOP TOUCHLINK PRO TOUCHPANEL

The Extron TLP Pro 525T is a 5" tabletop TouchLink® Pro Touchpanel. We designed this first 5" tabletop model with many enhanced features, inside and out. In addition to the new, high-performance quad-core processor and eight times more memory, it also features a high resolution, 800x480 capacitive touchscreen built with scratch and smudge-resistant Corning® Gorilla Glass® and a distinctive enclosure with a sleek, gracefully-sweeping back.

- ▶ 5" capacitive touchscreen with 800x600 resolution and 24-bit color depth
- ▶ Gorilla Glass screen is tough, scratch, and smudge-resistant
- ▶ Faster, quad-core processing and eight times more memory
- ▶ Compatible with all IP Link Pro control processors
- ▶ Power over Ethernet provides power and communication over a single Ethernet cable
- ▶ Built-in speaker provides audible feedback from button presses

DESCRIPTION

The **TLP Pro 525T** is Extron's first 5" tabletop touchpanel. Like the popular 7" and 10" tabletop models in this family, it features a distinctive and beautifully-designed enclosure that complements the decor of any modern workspace. To streamline integration and help minimize cable clutter, the TLP Pro 525T offers the convenience of PoE - Power over Ethernet, which allows it to receive power and communication over a single Ethernet cable.

All TouchLink Pro touchpanels can be customized using Extron GUI Designer software. This powerful interface design software offers ready-to-use templates for a wide variety of rooms and presentation environments. These designs may be used as is, or customized for the application by simply changing individual graphic elements.
