

BS-633A/633AT Wall Mount Speaker System

APPEARANCE AND DIMENSIONAL DIAGRAM

DESCRIPTION

The BS-633A/AT are wall-mount 5" (12cm) cone-type speakers with a compact and unobtrusive enclosure of ABS resin. Installation is quick and easy, and the speakers can be hook-mounted or mounted directly onto a wall. A push-type input terminal allows easy cable connections and bridge wiring. Input impedance can easily be adjusted by changing the tap position of the transformer. The BS-633AT comes with a built-in attenuator and can be connected to 2-wire and 3-wire systems. The speakers are highly cost-effective and well-suited for BGM and announcement applications.
